R.S. Steelage Pvt. Ltd.

Introduction

Established in **1996**, **R.S. Steelage Pvt. Ltd.** has been at the forefront of rack manufacturing in India, delivering high-quality storage solutions for a wide range of industries. With over **three decades of experience**, we have consistently evolved, integrating cutting-edge technology and innovative design to meet the ever-changing needs of our customers.

Our state-of-the-art facility is equipped with the latest in-house machinery, including advanced **2-Roll Forming Machines, 3-CTLs (Cut to Length), 2 Laser Cutting Systems, 3-CNC Bending Machine, Robotic Welding and Automatic Robotic Powder Coating Plant.** This comprehensive range of equipment allows us to produce racks and storage systems and ground mounted solar structure with unmatched precision and durability, ensuring superior quality at every stage of production.

In addition to our world-class machinery, we take pride in our fully equipped **Research and Design Lab**, where our skilled engineers and designers work collaboratively to create customized solutions that meet the specific needs of our clients. With a dedicated team of **more than 125 employees**, we combine expertise, innovation, and efficiency to deliver products that exceed industry standards.

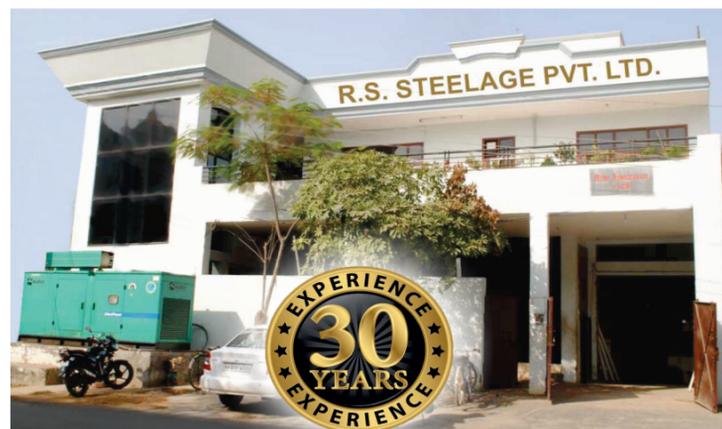

At R.S. Steelage Pvt. Ltd., we are committed to providing **reliable, in-time delivery, cost-effective and high-performance** rack solutions and solar structure, making us the preferred choice for businesses across various sectors.

Long Span Racks

Long Span Racking is a durable and high-capacity storage system designed for **storage of medium to heavy loads**. It offers a flexible and efficient solution for warehouses, workshops, and industrial facilities. With a strong metal framework, adjustable beam levels, and easy assembly, it maximizes storage space while ensuring quick access to stored items. **Ideal for bulk storage, cartons, and irregularly shaped goods**, Long Span Racking enhances organization and operational efficiency.

Multi Tier / Mezzanine Floor Racks

Mezzanine Floor Racking is a smart and space-efficient storage solution that maximizes vertical space in warehouses, distribution centers, and industrial facilities. **Designed to create additional storage or workspace without the need for structural expansion**, it features a strong steel framework, customizable load capacities, and modular designs. Ideal for optimizing floor space, improving inventory management, and enhancing operational efficiency, Mezzanine Floor Racking is a **cost-effective solution** for businesses looking to expand storage without increasing footprint.

At R.S. Steelage Pvt. Ltd., we are committed to delivering not just high-quality storage solutions but also a seamless customer experience. To ensure that our clients get exactly what they need, we provide **customized 3D drawings** that help visualize their storage layouts before production. These detailed designs allow for better planning, accurate space utilization, and necessary modifications before manufacturing begins.

In addition to this, we offer **comprehensive pre-sales and post-sales services**. Our pre-sales support includes expert consultation, site assessment, and tailored recommendations to help customers choose the best racking solutions for their specific needs. After installation, our post-sales services ensure continued support, including maintenance guidance and assistance with future modifications or expansions.

Pigeon Hole Racks & Slotted Angle Racks

Designed for **one part one location storage**, Pigeon Hole Racks provide multiple compartments for easy categorization of small to medium-sized items. They are widely used in warehouses, automobile industries, electronic component storage, offices, and retail outlets. Key features include:

- **Efficient Space Utilization** – Maximizes storage capacity in a compact footprint.
- **High Durability** – Made from heavy-duty steel with powder-coated or galvanized finishes.
- **Custom Configurations** – Available in various sizes and compartment layouts.
- **Quick Access & Organization** – Ideal for storing tools, hardware, documents, and inventory items.

With their sturdy design and modular adaptability, these racks streamline storage management, improving operational efficiency and workflow.

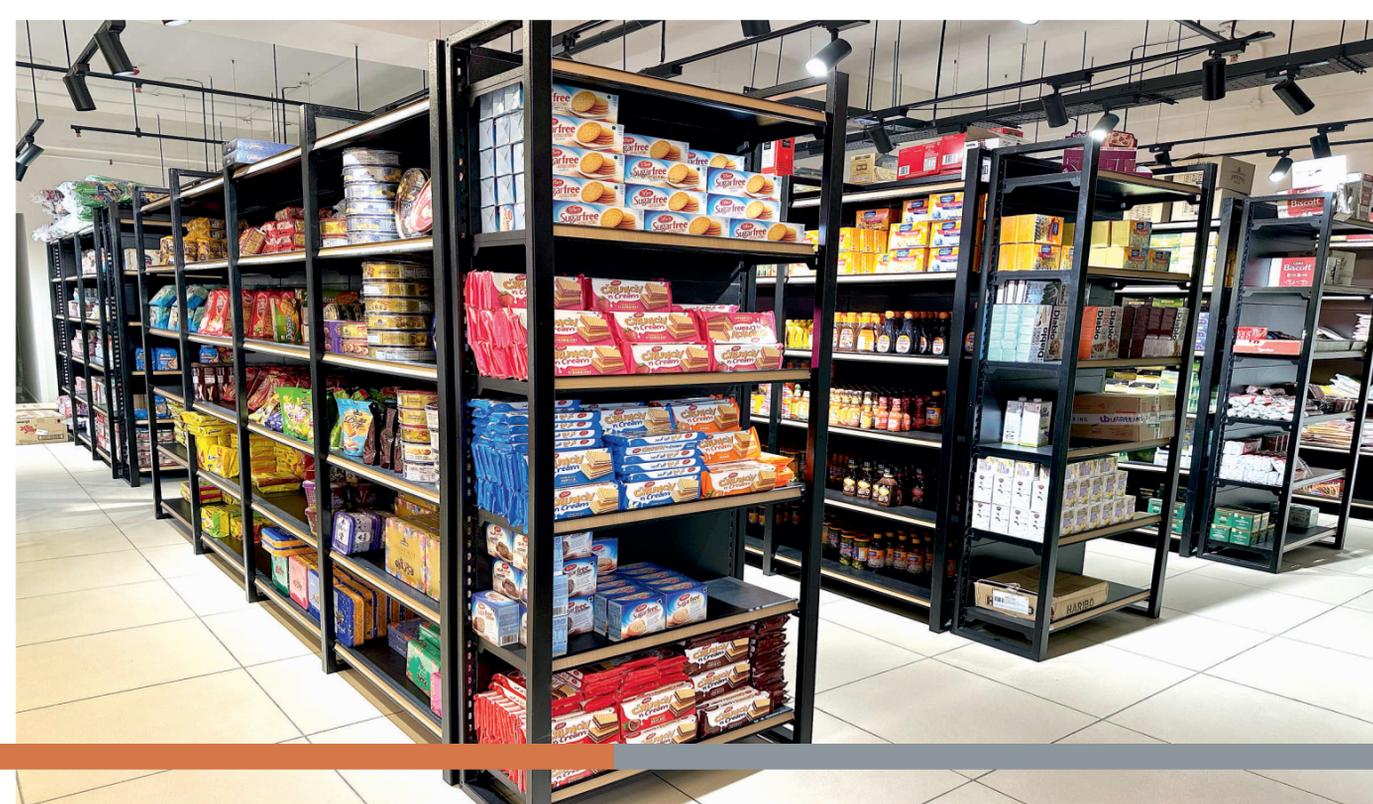

Showroom Displays Super Market Racks

Showroom Display Racks

Our showroom display racks are crafted to provide an elegant and functional display for various industries, including fashion, electronics, home decor, and more. With durable construction, sleek designs, and customizable options, our racks help businesses create an attractive retail environment that boosts customer engagement and sales.

Supermarket Racks

Designed to optimize space and ensure seamless product organization, our supermarket racks are ideal for grocery stores, hypermarkets, and retail outlets. Available in various sizes, weight capacities, and designs, these racks offer high durability, easy assembly, and efficient product categorization for a smooth shopping experience.

Mobile Compactors

Mobile Compactor Racking is a high-density storage system designed to maximize space utilization by mounting shelving units on mobile bases. These units move along guided tracks, eliminating unnecessary aisles and providing compact, secure, and efficient storage.

Solar Structure

At R.S. Steelage Pvt. Ltd., we take pride in delivering robust and innovative solutions for renewable energy systems. Our Solar Structures are designed to provide unmatched strength, stability, and durability, ensuring optimal performance for your solar power installations.

Why Choose Our Solar Structures?

Our structures are engineered to withstand harsh environmental conditions, including strong winds, heavy rainfall, and extreme temperatures. Made from **high-quality Galvalume, ZAM & HDG material**, they offer superior corrosion resistance and longevity, making them ideal for both residential and large-scale commercial solar projects.

Key Features:

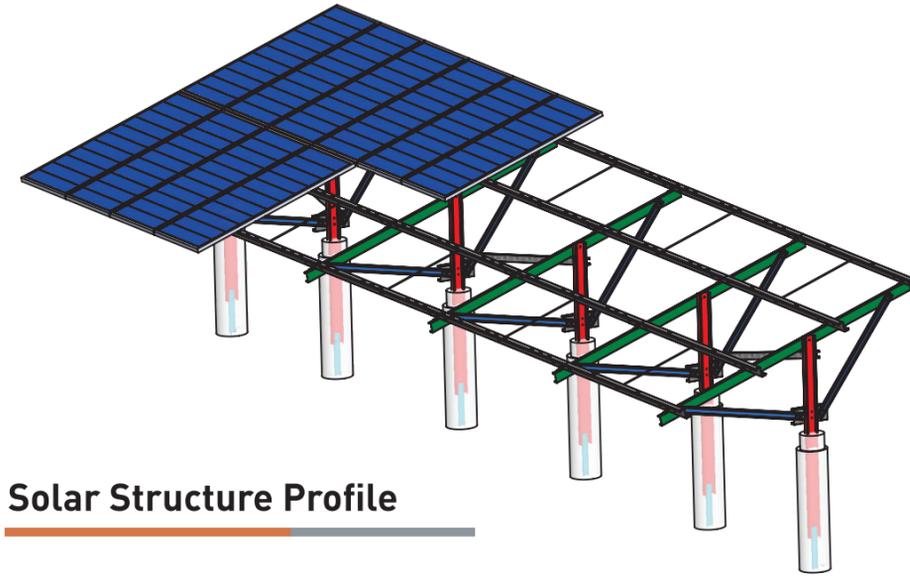

- Durable Construction
- Flexible Design
- Easy Installation
- Enhanced Efficiency

Applications: Our ground-mounted solar structures are ideal for: Solar Farms, Industrial Facilities, Agricultural Lands, Large Open Spaces.

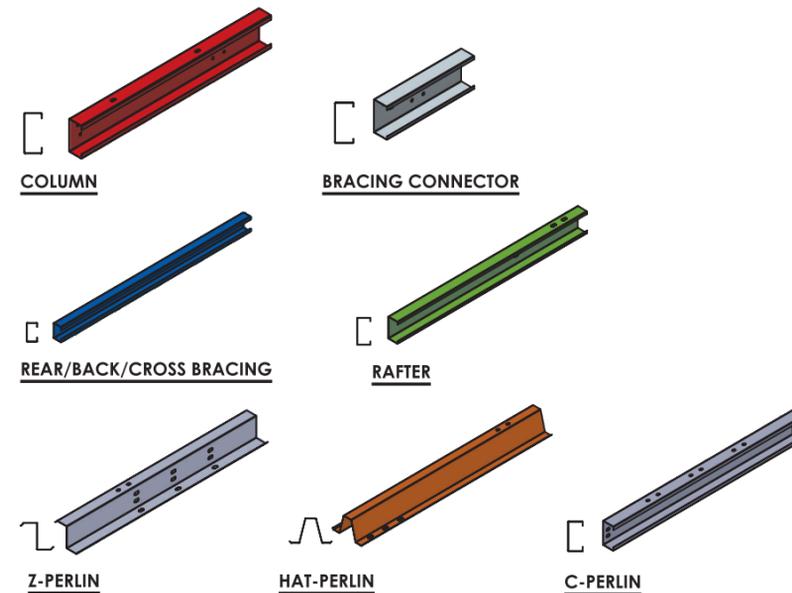

By choosing **R.S. Steelage Pvt. Ltd.**, you invest in **reliable solar mounting solutions that maximize energy output while minimizing maintenance needs.** Empower your sustainable energy journey with our trusted and innovative solar solutions.

We At R.S. Steelage Pvt. Ltd., our mission is to provide high-quality, durable, and efficient storage solutions that optimize space and enhance productivity. With a strong focus on innovation and customer satisfaction, we have built a reputation for delivering reliable and customized solutions for warehouses, showrooms, and solar structures.

This catalog showcases our diverse product range, designed to meet the evolving needs of businesses across industries. We are committed to excellence in every product we manufacture and look forward to being your trusted partner in storage solutions and solar structures.

Thank you for your trust and support.
